

Caged Heat The Wild World Of Sprint Car Racing

by Green, Andrew; LOXLEY, TONY

Caged Heat The Wild World Of Sprint Car Racing

In motorsport, there is nothing that approaches the thrill of a field of high horsepower, open wheel, caged and winged machines - each weighing less than you average VW beetle - power-sliding, wheel standing, bicycling through a tightly banked turn, inches apart and on the edge of calamity. Sprint car racing is a phenomenon that is gaining massive popularity, and for the first time ever a volume has been totally dedicated to these cars, capturing all the incredible excitement and drama through the lenses of the finest oval track photographers in the world. This is the ultimate story of modern sprint car racing, and a volume that is sure to provide a lavishly illustrated, motorised adventure that will truly take your breath away.
